January 16, 1970

Mr. Uldis Karins
Assistant County Engineer
N. C. County Engineering Building
P. O. Box 165
Wilmington, Delaware 19899

Dear Mr. Karins:

In continuation of our letter of January 6, 1970 regarding the investigations of bacterial quality of house water supplies around the Tybouts Corner Landfill, I have some additional information.

Samples collected on January 9, 1970 at the following houses showed no coliform counts.

		Coliform Count/100ml
Mr. James	P. O. Box 137	0
Mr. McCaffery	P. O. Box 138	0
Mr. Webb	P. O. Box 140	0
Mr. Wolfe	P. O. Box 141	0

I thought I should inform you of the results immediately in light of the concern the earlier data had on the residents.

Sincerely yours,

Shankha K. Banerji
